Virtual Patrol

Features & Benefits

- ✓ Enables faster response to events
- ✓ Reduces unwanted callouts to staff and guards after hours
- ✓ Provides the ability to quickly share footage with police and responders

A detector-driven event will provide a timed video clip for review by the control room Operator and an (optional) copy to the client. The clip is stored in a dedicated cloud server for 30 days for immediate access and then archived for five years.

Footage can be accessed via the Vs 2.0 Pocket Secure App

Regardless of the size of your business or home, there is a tailored solution available to you. Call us today if you would like to learn more about our tiered monitoring services.

Virtual Patrol

The Monitoring Centre provides a virtual patrol of the site via the cameras installed. A nightly schedule can be booked as required, to visually check the perimeter.

Safe Exit

Provide a supervised exit for a lone staff member to their vehicle.
